

## WALTERIA WATER DISTRICT FORMATION DELAYED

Efforts of Dr. L. M. Ellinwood and members of his family to keep the 900 acres of the Ellinwood ranch, potential homestead for 15,000 persons, out of the proposed water district to serve southwest Torrance have delayed consideration of the formation of the district for 30 days.

At the meeting of the City Council last Friday, the law firm of Murphy & Davis, representing Dr. Ellinwood, protested by letter the proposed inclusion of the Ellinwood property in the water district being formed on petition of Walteria residents and property owners. The letter asked the formation of the district and the proposed election be held in abeyance for at least 30 days while a study is being made of the proposal.

### FAMILY REUNION AT FRED BACON HOME

Celebrating V-J Day and the second birthday of their daughter, Rita, Mr. and Mrs. Fred O. Bacon entertained at a family reunion at their home, 1303 Portola ave.

## Construction On Navy Plant Being Rushed

Building of Torrance's United States Navy Material Redistribution Center is proceeding on schedule and will be able to take up most of the slack in employment, particularly if men involved are veterans.

So stated Lt. Com. Frederick

### R.N.A. CIRCLE TO MEET AUG. 28

Mrs. Mary Schroeder will entertain members of Royal Friendship Circle Tuesday, Aug. 28 at the home of her daughter, Mrs. Andrew Cochrane, 723 Ocean ave., Torrance. The ladies will begin sewing at 10:30 and at noon pot luck will follow. Royal Neighbors and their friends are welcome. Mrs. Cochrane may be reached at Torrance 547-J.

### TWO WEEKS VACATION

Walter Bacon left Friday for a two weeks vacation at the home of Mr. and Mrs. Kenneth Hughes of Riverside.

E. Drake Jr., officer in charge, who declared that the need for the big \$5,000,000 center being constructed on a 91-acre site is just as great now as it was before the end of the war.

Veterans will be given first choice for jobs on the payroll of the plant which will employ some 350 men. All kinds of craftsmen and tradesmen are needed, including skilled, semi-skilled and unskilled labor, Drake said, but the Civil Service will take applications from none but veterans for the present.

The administration and facility buildings, including the garages, are about completed, at the base. Fire walls are being constructed in the giant 202-foot by 602-foot warehouses, and steel will be erected as soon as the fire walls have seasoned and the forms are removed.

Surfacing with black top is about completed. Admiral Royal E. Ingersoll, commander of the Western Sea Frontier, said that the Navy plans no extensive outbacks on its Pacific Coast activities. Some \$12,000,000 worth of work is under way on Terminal Island. "Due to the need for maintaining support of Navy forces afloat and ashore in the Pacific," said Adm. Ingersoll, "a large and continuing job faces civilian workers and service personnel in the Navy's west coast activities, and no major force reduction is contemplated."

In a statement to the commandants of the 11th, 12th and 13 Naval Districts the admiral said:

"Even when most of the personnel and supplies overseas have been returned to this country, work will continue in the overhauling, reconverting and maintaining of the largest Navy and maritime tonnage in the world, and in the salvaging, storing and disposing of equipment and supplies, including surplus aircraft and ordnance."

# SAFEWAY - FOR CANNING SUPPLIES

*Want to Eat Well this Winter? ... you can!*

**IT'S A SMART IDEA** to can all you can now...while tender fresh fruits and vegetables are at their peak of goodness. Depend on Safeway to supply you with both the foods to can and the jars, lids, and other supplies that you'll need for the job. Prices are low!

**CANNING METHODS**

**Boiling Water Bath**—For canning fruits and tomatoes.

**Hot Pack**—Prepared fruit is covered with boiling syrup or water and cooked slightly before packing in jars for processing.

**Recommended** because more adequate sterilization is possible; jar space is economized because fruit can be more tightly packed due to preshrinking; thus fruit floating is minimized.

**Cold Pack**—Prepared fruit is packed into hot sterilized jars, covered with boiling syrup or water, and processed.

**Less efficient**, because adequate sterilization is more difficult, fruit floats because as it cooks it rises to top of jar.

**Pressure Cooker**—(Be sure to have pressure gauge checked for accuracy.) *This is the only safe method of canning meat, fish, poultry and all vegetables other than tomatoes.* Other methods give inadequate sterilization of these foodstuffs; food poisoning and botulism may develop. To be completely safe, boil home-canned corn and greens 20 minutes, all other vegetables, except tomatoes, meats, poultry and fish 10 minutes in an open kettle before *last* or *serv*ing. Reboil leftovers same length of time before using. Such boiling will destroy botulism poisoning if it should be present.

**MASON FRUIT JARS**, Kerr or Ball brand. (Per dozen pint jars, 62c.)

**MASON JAR LIDS** Metal-type lids. (Two-piece Jar Caps, dozen, 20c.)

**CERTO FRUIT PECTIN** Fruit pectin for jam and jelly making. Special deal.

**M.C.P. FRUIT PECTIN** Powdered fruit pectin, for perfect jam and jelly.

**TAVERN PAROWAX** Pure paraffin for sealing jams and jellies. 4 bars.

**GRANULATED SUGAR** Pure granulated beet sugar. (Five pound bag, 32c.)

**DOZEN QUARTS 76c**

**PACKAGE OF TWELVE 9c**

**3 8-OZ. BOTTLES 41c**

**3 3-OZ. PKGS. 25c**

**2 1-LB. PKGS. 25c**

**10-LB. BAG 61c**
